Micare

Available in three intensities that vary only in their mineral content, it allows you to modulate brightness and visual impact without altering the texture to the touch. This gradation ranges from a soft and understated look to a more expressive presence, always maintaining a contemporary aesthetic.

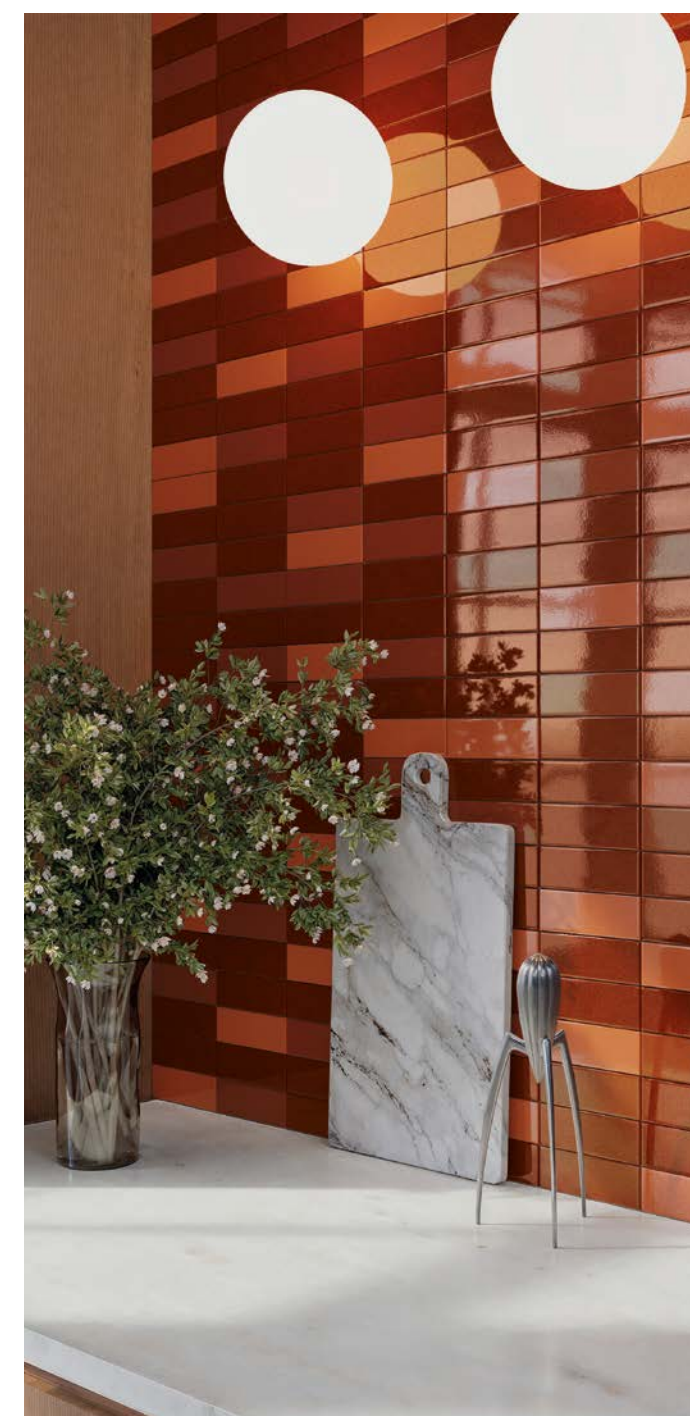

*Shaped by the expressive quality of light,
Micare is a collection that explores how surface
can shift, soften and come alive through glaze.*

PYRO
+
ECHO

*Drawing on a luminous mineral effect, it
brings depth and movement to the wall,
creating a contemporary ceramic language
that feels both subtle and distinctive.*
