Calvik Chevron

Calvik Chevron channels the energy of movement, a design shaped by shifting light, flowing grain, and directional form. Inspired by the angular strength of mountain passes and forest trails, it merges bold geometry with the calm elegance of Nordic restraint. Dynamic yet grounded, this is surface design with purpose.

THE VIK SERIES

Five formats. One forest. Cut from the same grain.

The Vik Series tells the story of five forms, shaped by a single source. Across five distinct ranges, Norvik, Brenvik, Calvik, Portvik and Sorvik, a single curated palette runs throughout.

An interconnected series of wood-effect surfaces, it draws inspiration from the stillness of northern forests, where light filters through pine canopies and time is etched into the grain. Each range is cut from the same palette, yet crafted to stand apart.

Slats, chevrons, parquet and planks, one forest, five formats, infinite ways to design with harmony and intent.
